

Te Toka Tumai is the Māori name for Auckland DHB. It refers to the rock that stands firm in the sea of the Waitemata harbour of Tamaki Makaurau (Auckland). The rock reminds us that the health system needs to be a solid whole, where all the activities across the continuum of health are joined. Te Toka Tumai is our proud and stable foundation when the going is tough. Lives depend on it.

OUR VISION

Healthy communities – World-class healthcare – Achieved together

Kia kotahi te ora mo te iti me te rahi o te hāpori.

Our purpose is to improve the health of the Auckland DHB population and all New Zealanders who access our services, through high quality health and disability services.
