

MidCentral DHB works collaboratively with a wide range of primary health providers, including General Practice, Aged Residential Care, Iwi providers and Non-Government Organisations to provide an integrated health care service for consumers across the region.

ABOUT MDHB

MidCentral District Health Board (MDHB) warmly welcomes graduates to apply for our Nursing Entry to Practice (NETP) and Nursing Entry to Specialist Practice (NESP) Programmes via the ACE Website.

Our NETP programme is Nursing Council of New Zealand (NCNZ) accredited and supports new graduates nurses within both hospital and primary health care settings. The NETP and NESP Programmes are central to our philosophy of "growing our own" nurses and retaining them through continuing education and ongoing career development.

APPLY VIA ACE RECRUITMENT

WHY CHOOSE MDHB?

New graduates are supported to complete the first year of practice programmes by our NETP/NESP Coordinators, Nurse Educators, Preceptors, Clinical Nurse Specialists, Charge Nurses and nursing staff.

NETP

On completion of the NETP programme, nurses will meet the competencies and standards of practice at "competent" level on the MidCentral DHB Professional Development and Recognition Programme (PDRP) as required by the NCNZ.

NESP

Nurses completing the NESP programme at MDHB achieve a Post-Graduate certificate in Nursing with an endorsement in Mental Health from Whitireia Polytechnic.

NETP

- MidCentral Health and primary health providers in the region adopt a responsive employment policy enabling us to employ graduate nurses throughout the year as and when vacancies arise
- Please view the MDHB NETP web page for information regarding recent NETP nurse practice area employment

ONGOING SUPPORT

- MDHB is committed to recruiting and retaining a permanent nursing workforce that reflects the diversity of our community
- Nurses within the MDHB region are supported to identify professional career goals and to undertake ongoing professional development to meet their individual learning needs
