

Nelson Marlborough Health is the main funder and provider of health services in the Nelson, Tasman and Marlborough region. We promote our population's health and wellbeing serves nearly 145,000 people and we employ more people than any other organisation in our region – about 2500 people which comprises two hospitals, two public health services and many community services.

OUR VISION

All people live well, get well, stay well.
Kaiao te tini, ka ora te mano, ka noho ora te nuinga.

OUR MISSION

Working with the people of our community to promote, encourage and enable their health, wellbeing and independence

GRADUATE NURSING

NMDHB's 'NETP programme places new graduate nurses in our workplaces. Graduates will enjoy a safe learning environment to support transition from an advanced beginner to a competent registered nurse.

The range of placements available NetP placements are offered in Nelson and Blenheim for both secondary services and primary health. We try to place people according to their clinical interest.

Secondary service placement areas include: Medical, Surgical Assessment treatment and rehabilitation, Perioperative, Emergency Department, Radiology.

Primary care placements areas include : Maori Health Provider, Hospice, Aged Care and a mixed Rural nursing experience at Murchison Community Hospital.

NMDHB's NESP programme provides a safe, supported environment in which a graduate nurse can transition to mental health nursing practice.

The programme is approved by Nursing Council New Zealand and funded by Te Pou Mental Health Workforce Development (Te Pou).
