

**CMDHB is situated in the heart of Manukau City, Auckland, serving a young, vibrant and fast growing population.**

**With over 167 ethnicities to boast, it is a colourful and dynamic community.**

**A variety of socio-economic extremes enables nursing, as a core to making a difference to population groups and people from all walks of life.**

**Counties Manukau Health is a well-known as a great place for teaching and innovation.**

## **ONGOING SUPPORT**

Committed to making our graduate nurses feel supported. Our senior nurses and your preceptors have all been where you are. They know the organisation inside out and understand the challenges and opportunities

The NETP team includes a Nurse Coordinator/Educator and three Clinical Coaches who work closely with the senior nursing staff in all clinical areas to support the graduate nurse throughout the duration of their first year of practice

## NESP

At CMH graduate nurses working in the Mental Health sector have the opportunity to work in diverse areas, across the age continuum, as well as with culturally specific and geographically aligned services. With acute treatment options, connecting with the communities we work alongside and building relationships with people across the CMH region, we contribute to improving outcomes for the people we work with.

We offer a Post graduate certificate which includes two post graduate papers

Experience in two six month placements within Mental Health Acute Care & Community

Level 2 Competent PDRP

### Four Community Mental Health Centres

- \* Rehabilitation and Recovery Services
  - \* Inpatient Services for Older Persons inpatient and community
  - \* Adult Acute Inpatient services Intensive Care Team
  - \* Early Psychosis Intervention Team
- Culturally Specific Services: Faleola and Te Puna Waiora; Psychological Medicine; Home Based Treatment; Maternal Mental Health; Child and Youth Services; Eating Disorders & Youth Forensic Team
