HEALTH NEW ZEALAND – TE TAI TOKERAU, NORTHLAND

Te Poari Hauora Ā Rohe O Te Tai Tokerau

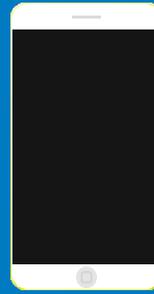

WHO WE ARE

Health New Zealand - Te Tai Tokerau, has 4 hospitals within its rohe, a wide range of community and primary health options and have a new Health strategy committed to looking at a 'new way of doing things' Te Tai Tokerau Health Strategy 2040

The programmes support new graduate nurses in their first year of practice. As they begin their career pathway the programmes enable further learning and professional development through preceptorship, education and manaakitanga. Graduate Nurse advance from beginner to competent practitioner.

The NESP programme supports nurses new to mental health and addiction services to develop their professional practice while developing the specific skills required for the specialty field of mental health and addiction nursing.

SFYP & ENSIPP programmes support nurses in all other settings outside of mental health
