WE OFFER

Southern Cross Hospitals' NETP programme has been designed to guide and support newly registered nurses as they transition from student to registered nurse.

We provide opportunities within day surgery, the operating room, post-anaesthetic care, inpatient surgical care (including high dependency care), intermediate care (at some sites) and intensive care (at some sites).

A standardised learning framework delivered throughout our hospital network across 14 hospital sites in NZ.

Opportunity to consolidate practice across the breadth of surgical services our hospitals provide.

Most of our hospitals partner with local DHB providers ensuring a comprehensive new graduate experience.

Either a postgraduate or post registration paper (region dependent).

All new graduates are supported by 'credentialed' clinical preceptors throughout the NETP programme.

NETP

Positions will vary in number and scope .
Visit the Southern Cross Hospitals website for current NETP vacancies.

ONGOING SUPPORT

- Continued employment in current practice and hospital where applicable
- Opportunity to apply for positions within the organisation across NZ
- On-going professional development
- Further post-graduate or post registration study
- We offer perioperative courses which guide and support role specific orientation across the perioperative patient journey.
