

ACE Nursing Student Presentation 2024

Linda Zhong
ACE Recruitment Consultant

ACE Nursing Presentation

- Eligibility Criteria
- Overview of the ACE Process
- Documentation
- ACE Match Algorithm
- Post-Match
- Information Sources

What is ACE?

- ACE is the only way to apply for a HWNZ funded Nurse Entry to Practice (NETP) or New Entry to Specialty Practice (NESP) graduate training programme in NZ
- The ACE Process is not the only way to apply for a Registered Nursing position

Eligibility Criteria

- Either be a New Zealand Citizen, Australian Citizen or hold a Permanent Resident Visa (Or Returning Resident Visa)
- You must have not practised as a New Zealand Registered Nurse continuously (full time 0.8FTE or more) for longer than six months before starting on the NETP programme. – Some situations will be acceptable.
- For full information please refer to the ACE Nursing website nursing.acenz.net.nz

Complete

Incomplete

Common application mistakes

- Applying to the wrong portal i.e. EN not RN – Double check
- Entering contact details incorrectly – double check name & email address of both yourself and referee
- Not getting documents certified
- Indicating a scholarship on application but not providing proof of scholarship
- Requesting references late in the application process, the earlier the better!

Applications Close

- Following the closure of the application portal ACE creates Excel spreadsheets for each employer listing all the applicants who ranked that employer as one of their preferred employers
 - Note that you will only be included in this spreadsheet if your application was complete at application close time of **12pm (noon), Tuesday 30th April 2024**
- ACE then generates an assessment score for each candidate by assessing your application against the nationally agreed criteria and adds this score to the excel spreadsheets
- ACE then sends this spreadsheet to only the employers you have ranked as a preference
- Employers then review your application together with Primary Care, Aged Residential Care and Community Care facilities etc and create short lists based on their own local criteria and processes

ACE Assessment Score

- Referee Scores Combined
 - Maximum weight score of **70%**
- Fitness to Practice
 - Maximum weight score of **10%**
- Verified Academic Transcript
 - Maximum weight score of **10%**
- Certified Bachelor of Nursing Scholarship
 - Maximum weight score of **10%**

Interviews & Assessments

- Not everyone will be interviewed
- Employers use their own interview or assessment processes
- The ACE Consultant is not privy to the shortlist of applicants as this is an employer process
- Employers then send their selections & ranking of applicants back to ACE along with a confirmed number of positions that they have available

ACE Match Algorithm

1. If you are ranked above the line by all 3 employers, you will be matched your 1st preferred employer. However, if your first preferred employer did not rank you above the line but your second preferred employer did, you'll get matched to your 2nd preferred employer.
2. The algorithm will not take into account your Practice Setting preferences
3. The algorithm will match NESP candidates to NESP positions first and then NETP candidates to NETP positions
4. Candidates can only be matched to 1 employer

What Happens After the Match?

- **Not Initially Matched**
 - ✓ Receive notification email from ACE (9am morning)
 - ✓ Go into the **national talent pool** sent to all employers
 - ✓ If still eligible applicants can re-apply in next intake
- **Successfully Matched**
 - ✓ Receive notification email from ACE (9am morning)
 - ✓ Receive offer letter from employer (From 1pm afternoon)
 - ✓ Go back to employer with acceptance/decline
