

Regardless of whether we work directly with patients/clients and whānau or support the work of the organisation in other ways, each of us makes an essential contribution to ensuring Waitematā delivers the best care for every single patient/client using our services.

ABOUT WAITEMATĀ DISTRICT

We are innovative, contemporary and offer new technology.

The largest district by population and fastest growing.

Supportive learning environment with a dedicated NETP team including six Nurse Educators, two Clinical Coaches, area specific Nurse Educators and NESP team with two Nurse Educators.

Individualised support – we are available at all times to debrief and share coping strategies, to work alongside new graduate nurses on the floor and to identify own learning needs and extend their practice.
